

FOR IMMEDIATE RELEASE

Madame Psychosis Unleashes “Fiery”, High-Energy Social Justice Anthem “Revolution”

“Brimming with pounding drums and scorching guitars, ‘Revolution’ is a rollercoaster ride from beginning to end” - [The Other Side Reviews](#)

Toronto - April 3rd, 2024 - Toronto-based indie rock band Madame Psychosis is igniting the arrival of spring with the release of "Revolution", a fierce, high-energy anthem that captures the essence of frustration and a call for change. It was recorded at Union Sound Company in Toronto, Canada, and was mixed and co-produced by Alex Gamble (Alvvays, Broken Social Scene, Arkells). It is now available on [all major streaming services](#) starting today.

"Revolution" is a sonic explosion, featuring powerful guitar effects and distortion that intensify the band's impassioned message. It reflects the band's commitment to social justice, tackling issues of inequality, discrimination, and the urgent need for transformative change. With a raw and unapologetic edge, Madame Psychosis addresses the current state of the world, urging listeners to rise up and demand a better future.

"When I sat down to write the lyrics it came from the frustration of consistently seeing and hearing about the oppression and marginalization of people across the world, and also my own personal experiences of subjugation," says the band's lyricist and lead singer, Michelle Mondesir. "The less we embrace our differences as a positive and beautiful reflection of unique qualities that deserve a place and space in society, the more we lose our humanity. Until we start thinking and behaving in an expansive manner, coming from a place of true care, love, compassion, and kindness for ourselves and others, we will never be free."

"Revolution" is a testament to the band's ability to blend gritty rock with socially conscious lyrics, creating a powerful musical experience for fans old and new. Madame Psychosis invites fans and advocates for change to join them on this electrifying journey.

About Madame Psychosis:
